On Person-to-Person messages of more than 10 minutes duration, the charge for time in excess of 10 minutes is the same as for Station-to-Station calls.

How to Make Out of Town Calls

[To aid in deciding what type of call will best serve your purpose, it will be helpful if you will read completely the following paragraphs.]

THERE ARE two general classes of Long Distance calls, Station-to-Station and Person-to-Person. Rates for Station-to-Station calls are lower than rates for Person-to-Person calls. Station-to-Station rates are further reduced during certain evening and night hours. Person-to-Person service includes Appointment and Messenger calls.

If you can give the telephone number of the distant subscriber on any class of call, your call can be handled more promptly.

Station-to-Station Service

From One Telephone to Another

A Station-to-Station call is one on which you agree to talk to anyone available at the called telephone. The best way to make a Station-to-Station call is to first give the Long Distance operator your telephone number and name, then tell her you wish to make a Station-to-Station call. If you know the number of the distant telephone give it directly to the Long Distance operator. If you do not know the number, say to the Long Distance operator, for instance, "I want Mr. John Brown's residence, 250 Sayre St., (Name of city or town)." Be sure that you do not specify any particular person to whom you wish to talk in making a Station-to-Station call. Rates are less than for Person-to-Person calls. If you wish to make a Station-to-Station call to a telephone reached through a Private Branch Exchange, place your call for the number or name under which the Private Branch Exchange is listed, and when the Private Branch Exchange operator answers, ask her to connect you with the desired branch telephone. On such calls timing of the message begins when the Private Branch Exchange operator answers. If, in placing your call, you ask for a particular telephone, office or department reached through a Private Branch Exchange, it becomes a Person-to-Person call and the higher Person-to-Person rate applies.

Reduced Evening and Night Rates on Station-to-Station Calls

Reduced rates apply to Station-to-Station calls during certain evening and night hours. Between 7:00 P. M. and 8:30 P. M. the reduction is approximately 25 percent of the Station-to-Station day rate. After 8:30 P. M. and until 4:30 A. M. the reduction is approximately 50 percent of the Station-to-Station day rate, the minimum reduced rate, however, being 35 cents. No reduction is made on Evening and Night calls where the day rate is 35 cents or less. On all Station-to-Station Day, Evening and Night calls the period for which a charge is made starts when the called telephone answers.

Reversal of Charges on Station-to-Station Calls

Reversal of charges on Station-to-Station calls is permitted at Station-to-Station Day, Evening and Night rates of 25 cents or more, when anyone at the called telephone accepts the charges at the time the operator first reaches the called station. Reversal of charges is also permitted on Station-to-Station Day, Evening and Night calls where the rate is 20 cents, under the same conditions as stated above, except that the rate for such calls is 25 cents. When the charges are not accepted at the called telephone and the calling party is unwilling to pay the charges for completing the call, the regular Person-to-Person report charge will be assessed against the calling party.
