Some Selected Long Distance Rates from

MURFREESBORO, TENN.

The rates given below are for the initial period. An initial period of 5 minutes is allowed on Station-Station calls where the rate is 25 cents or less. Where the rate is more than 25 cents the initial period is 3 minutes on all classes of calls. Rates to over 70,000 other points may be obtained by calling "Long Distance."

To speed your service, we will furnish, without charge, a special long distance directory for listing telephone numbers of firms or individuals frequently called, also rates and other information of value. A call to the Business Office will secure this directory.

On Person-to-Person messages of more than 10 minutes duration, the charge for time in excess of 10 minutes is the same as for Day Rate Station-to-Station calls.

How to Make Out of Town Calls

[To aid in deciding what type of call will best serve your purpose, it will be helpful if you will read completely the following paragraphs. **]**

THERE ARE two general classes of Long Distance calls, Station-to-Station and Person-to-Person. Rates for Station-to-Station calls are lower than rates for Person-to-Person calls. Station-to-Station rates are further reduced during certain evening and night hours. Person-to-Person service includes Appointment and Messenger calls.

If you can give the telephone number of the distant subscriber on any class of call, your call can be handled more promptly.

Station-to-Station Service

From One Telephone to Another

A Station-to-Station call is one on which you agree to talk to anyone available at the called telephone. The best way to make a Station-to-Station call is to first give the Long Distance operator your telephone number and name, then tell her you wish to make a Station-to-Station call. If you know the number of the distant telephone give it directly to the Long Distance operator. If you do not know the number, say to the Long Distance operator, for instance, "I want Mr. John Brown's residence, 250 Sayre St., (Name of city or town)." Be sure that you do not specify any particular person to whom you wish to talk in making a Station-to-Station call. Rates are less than for Person-to-Person calls. If you wish to make a Station-to-Station call to a telephone reached through a Private Branch Exchange, place your call for the number or name under which the Private Branch Exchange is listed, and when the Private Branch Exchange operator answers, ask her to connect you with the desired branch telephone. On such calls timing of the message begins when the Private Branch Exchange operator answers. If, in placing your call, you ask for a particular telephone, office or department reached through a Private Branch Exchange, it becomes a Person-to-Person call and the higher Person-to-Person rate applies.

Reduced Evening and Night Rates on Station-to-Station Calls

Reduced rates apply to Station-to-Station calls during certain evening and night hours. Between 7:00 P. M. and 8:30 P. M. the reduction is approximately 25 percent of the Station-to-Station day rate. After 8:30 P. M. and until 4:30 A. M. the reduction is approximately 50 percent of the Station-to-Station day rate, the minimum reduced rate, however, being 35 cents. No reduction is made on Evening and Night calls where the day rate is 35 cents or less. On all Station-to-Station Day, Evening and Night calls the period for which a charge is made starts when the called telephone answers.

Reversal of Charges on Station-to-Station Calls

Reversal of charges on Station-to-Station calls is permitted at Station-to-Station Day, Evening and Night rates of 25 cents or more, when anyone at the called telephone accepts the charges at the time the operator first reaches the called station. Reversal of charges is also permitted on Station-to-Station Day, Evening and Night calls where the rate is 20 cents, under the same conditions as stated above, except that the rate for such calls is 25 cents. When the charges are not accepted at the called telephone and the calling party is unwilling to pay the charges for completing the call, the regular Person-to-Person report charge will be assessed against the calling party.

Person-to-Person Service

From One Person to Another

A Person-to-Person call is one on which you desire to talk to a certain person, or to be connected with a specified telephone reached through a Private Branch Exchange. Call Long Distance and give her the details of the call, for example, a call for Mr. John Brown at 250 Sayre St., (Name of city or town), is a Person-to-Person call. On such calls, more operating work and greater uses of toll lines are required and the rates are higher than for Station-to-Station calls. Charges are based on an initial period of three minutes and a charge is made for additional time in excess of three minutes.

Report Charges

On uncompleted Person-to-Person calls, a charge, known as a Report Charge, is made to compensate in part for the work performed by the Telephone Company in trying to establish communication between the calling and called person. Only one Report Charge is made on any one call. If the call is uncompleted during the day filed and, at the request of the calling party, is carried over and completed the following day, no Report Charge is made. No Report Charge will be made for reports that the called telephone is "busy," "out of order," or "don't answer." Nor will a report charge be made for reports that the called party has no telephone, that his telephone has been discontinued.

Collect Calls

A Person-to-Person call may be charged to the person at the distant telephone if he will agree to accept the charge. The Person-to-Person rate applies. Request to handle the call in this

manner should be made when the call is given to the Long Distance operator. If the charge is not accepted at the distant telephone and the call is not completed, a report charge will be made.

Appointment Calls

An Appointment call is a call on which you specify a definite time at which you wish the connection to be established. The Long Distance operator will endeavor to make an appointment with the called person for the time specified and a report will be given to you advising when the called person will be ready. The rate is the same as for Person-to-Person calls. If conversation is not held, a report charge will be made.

Messenger Calls

A Messenger call is a call to a person who cannot be reached directly by telephone. The Telephone Company will arrange to send a messenger to request the called person to come to a telephone to talk. The rate is the same as for Person-to-Person calls plus the cost of sending the messenger. If conversation is not held, a report charge and messenger charge will be made.

Rates and Charges

When you need to know the charge on a Long Distance call, make your request to the operator when placing the call. FOR DETAILED RATES TO NEARBY POINTS AND TO MORE DISTANT POINTS FREQUENTLY CALLED, SEE CLASSIFIED LIST OF RATES PUBLISHED ELSEWHERE IN THIS DIRECTORY.

RULES AND REGULATIONS APPLYING TO ALL SUBSCRIBERS CONTRACTS

Classification of Areas as the Basis for Furnishing Telephone Service.—Economic operation of the telephone business, to secure protection to the whole body of rate payers and to the business itself, requires that its property be built and operated in accordance with a definite plan under which specified classes of service are regularly furnished in specified areas or types of areas. The Telephone Company therefore does not undertake to furnish any desired class of service at any desired location, nor does it undertake to extend its plant to remote sections where such extension is not warranted by public necessity as distinguished from personal desire, except where protection is afforded.

The general plan for furnishing telephone service as authorized in the General Exchange Tariff is based on a classification of areas by types for the determination of the classes of service available and for the application of rates.

Term Period of Contract.—The Company's contracts covering the furnishing of telephone service or ordinarily for initial term periods of one month. Under some special conditions involving unusual installation costs or involving the installation of special equipment, contracts may be required for longer initial term periods.

The Telephone Company's obligation to furnish telephone service is dependent upon its ability to procure and retain suitable facilities and rights for the construction and maintenance of the necessary circuits.

Construction and Installation Charges.—The charges and regulations specified in the Company's General Exchange Tariff apply in connection with all classes of service, equipment or facilities furnished by the Telephone Company.

A charge is made for providing new pole line construction on public highways, when the subscriber is located within the base rate area.

No charge is made for providing and maintaining new pole line construction along public highways, outside the base rate area, when such pole lines are to be used in serving subscribers in general.

Except as provided above, when an applicant for service is located outside of the base rate area in territory where new pole line construction is required and the cost of providing the necessary additional poles is more than three times the annual mileage charge for the circuit thereon, connection with the Telephone Company's system is provided in one of the following methods as the applicant may elect:

The subscriber may bear the cost in excess of the amount specified above for providing the poles and pay extra exchange line mileage charges for the necessary circuit. Ownership of such poles is vested in the Telephone Company. Maintenance of poles and circuits is at the expense of the Telephone Company.

A subscriber at his own expense may furnish the portion of pole line and circuit from his location to an agreed upon point of connection with the Telephone Company's system. The subscriber is required to maintain or bear the expense of maintaining his portion of the pole line and circuit and also to bear the expense of installing and maintaining the station equipment, except that when the station is brought to the Company's central office for repairs, no labor expense incurred for such repairs is charged to the subscriber. The subscriber is charged extra exchange line mileage charges for that portion of the Telephone Company's circuit outside of the base rate area. Ownership of the poles and circuit provided by the subscriber is vested in the subscriber. Ownership of the station equipment is vested in the Telephone Company.

A pole on private property to be used in serving an individual subscriber is furnished and maintained at the subscriber's expense. Ownership of such poles on private property is vested in the subscriber.

No charge is made for furnishing and maintaining poles on private property when such poles are to be used to carry circuits serving subscribers in general. In such cases, ownership of poles on private property is vested in the Telephone Company.

Whenever it becomes necessary to replace poles on private property, the new poles are furnished only in accordance with the arrangements specified above.

All circuits on poles on private property are owned and maintained by the Telephone Company.

When a specified type of construction is desired by a subscriber, as for example, when underground wire connections are desired in places where aerial drop wires are regularly used to reach subscriber's premises and where individual requirements of a subscriber make the installation unusually expensive, the subscriber is required to bear the cost of such special construction or installation.

Connection Charges and Charges for Moves and Changes.—A schedule of fixed charges is established covering the connection of a subscriber's station with the exchange of the Company, and covering the charges for moves and changes. These schedules of charges are published in detail in this directory.

Unauthorized Use of the Telephone.—Telephone equipment and facilities are furnished for the use of the subscriber, employees, agents or representatives of the subscriber or members of the subscriber's domestic establishment except in connection with semi-public telephone service and except as the use of the service may be extended to joint users.

All equipment furnished by the Telephone Company shall remain the property of the Company. Such equipment shall not be used for any toll or consideration to be paid by any other person than the subscriber, nor for performing any part of the work of transmitting, delivering or collecting any message, where any toll or consideration has been or is to be paid any party other than the Telephone Company without the written consent of the Company.

Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Telephone Company, except upon the written consent of the Company.

Unauthorized Attachments.—The telephone equipment, apparatus and lines furnished shall be carefully used and no instrument, appliance or device, of any kind, not furnished by the Telephone Company shall be attached to or in any way used in connection with such telephone equipment, apparatus and lines. In case any instrument, apparatus or device of any kind other

than that furnished by the Telephone Company is attached to or connected with any part of the Company's property, the Telephone Company reserves the right to remove such instruments, apparatus or device and to suspend or discontinue service without any claim on the part of the subscriber.

Changes of Call Numbers.—The subscriber has no property right in the telephone number or any right to continuance of service through any certain central office and the Telephone Company may change the telephone number or the central office designation whenever it deems it desirable in the conduct of its business.

Party Line Service.—When party line service is furnished, the Telephone Company may in consideration of the rate at which service is furnished establish and furnish service to one other subscriber in the case of two-party line service, and other subscribers in the case of multi-party (more than two-party) line service. The Telephone Company reserves the right to cancel any two-party line or multi-party line contract, upon thirty days' notice, whenever in the judgment of the Company, the use of the subscriber holding such contract is such, from large use or other causes, as to interfere with the reasonable use of others connected with the same line.

All ordinary expense of maintenance and repairs, unless otherwise specified in the General Exchange Tariff or the Local Exchange Tariff, is borne by the Telephone Company. The subscriber is entitled to the actual cost of each telephone instrument or piece of apparatus injured or destroyed otherwise than by unavoidable accident.

Terms of Payment.—The subscriber shall pay monthly in advance or on demand all charges for exchange service and equipment and shall pay on demand all charges for toll service. The subscriber assumes responsibility for all charges for exchange service and for toll messages originating at the subscriber's station, and for toll messages received at the subscriber's station on which the charges have been reversed with the consent of the person called.

All charges due by the subscriber are payable by the subscriber at the Telephone Company's Commercial Office or by any other agency duly authorized to receive such payment. If collection in writing is not received by the Telephone Company within thirty days after the bill is rendered, the account shall be deemed correct and binding upon the subscriber.

In the event of abandonment of the station, the non-payment of any sum due or any other violation of the regulations applying to subscribers' contracts or to the furnishing of service, the Company may without notice, either (a) suspend service until all violations have ceased, or (b) terminate the subscriber's contract without suspension of service or (c) following a suspension of service, sever the connection and remove any of its equipment from the subscriber's premises. When service has been suspended for non-payment of charges, restoration of service is made upon payment of charges due and in addition a restoration charge of \$1.00.

When instruments have been removed for non-payment, the contract is considered to have been terminated. Reinstallation of service may be made only upon the execution of a new contract.

Uninterrupted Service Not Guaranteed.—In view of the possibility of errors and difficulties in the transmission of messages by telephone and the impossibility of fixing in all cases the cause thereof, the subscriber assumes all risks connected with the service, as the Telephone Company cannot guarantee uninterrupted working of its lines and instruments. In case service is interrupted otherwise than by the negligence or willful act of the subscriber, an allowance is made, computed on the basis of the minimum monthly rate for each of the telephone service, equipment and facilities furnished as are rendered useless or operative. Such allowance covers the period the interruption continues after notice in writing is received by the Telephone Company. No other liability shall in any case attach to the Telephone Company.

For the purpose of inspecting, repairing or removing any part of the Telephone Company's equipment, apparatus and lines on the subscriber's premises, the Company's employees shall have access thereto at any reasonable hour.

No liability shall attach to the Telephone Company by reason of any defacement or damage to the subscriber's premises, resulting from the placing of the Company's instruments, apparatus and associated wiring on such premises, or by the removal thereof, when such defacement or damage is not the result of negligence on the part of the Company or its employees.

The Telephone Company shall not be liable for damages or statutory penalties in any case where a claim is not pre-liminary secured.

When suitable arrangements can be made, lines of other companies may be used in conjunction with the Telephone Company's lines in establishing wire connection to points not reached by the Telephone Company's lines. In establishing connections with the lines of other companies the Telephone Company will not be responsible or liable for any action of the connecting company.

The Telephone Company will not transmit messages, but offers the use of its facilities when available and will not be liable for errors in transmission or for failure to establish connection. Employees of the Telephone Company are forbidden to accept either oral or written messages to be transmitted over the lines of the company.

Public Pay Station Telephones.—Public pay station telephones are located at various points for the convenience of telephone subscribers and the general public. Instruction cards are displayed with each public pay station telephone, explaining the operation, and patrons should observe and follow these instructions when making calls.

Telegrams by Telephone.—Telegrams may be transmitted to and received from telegraph offices by telephone. To send a telegram or cablegram call by name the telegraph company desired. By arrangement with the Western Union Telegraph Company any telephone subscriber may have charges for messages received or sent by Western Union Telegraph Company charged to his telephone and collected with his telephone bill.

Charges for Connections and Moves and Changes**CONNECTION CHARGES**

1. For Individual or Party Line Service, each main station \$3.50
2. Private Branch Exchange Trunks, each \$3.50
3. Extension Stations and Private Branch Exchange Stations:

Four schedules of connection charges are applicable, based on the total number of company-owned stations connected with the exchange. Schedule 1 applies in exchanges having from 1 to 2,500 stations, Schedule 2 applies in exchanges having from 2,501 to 10,000 stations, Schedule 3 applies in exchanges from 10,001 to 30,000 stations, and Schedule 4 applies in exchanges having more than 30,000 stations.

SCHEDULES

	1	2	3	4
Business...	\$1.50	\$1.50	\$1.75	\$2.00
Residence...	1.00	1.00	1.25	1.25

4. Where service is established by the use of instrumentalities already in place on the applicant's premises and no change is made in the type or location of such instrumentalities \$1.50

CHARGES FOR MOVES AND CHANGES

The charges for moves and changes in equipment will be as follows:

1. For moving a main station telephone set from one location to another on same premises \$3.00
2. Moving an extension or private branch exchange station from one location to another on same premises

a charge equalling the connection charge applicable if installed anew applies.

3. For moving any other equipment or wiring from one location to another on the same premises, a charge based on the cost of labor and material.
4. For change in type or style of telephone set \$1.00
5. For other changes in equipment or wiring, a charge based on the cost of labor and material.

Subscribers wishing their telephones moved from one location to another should give written notice to the Business Office of the Company as far in advance of the date the change is desired as possible. The Company will, subject to the usual charges, change the location, provided it has facilities available, at as early date as practicable and the conditions under which it is then working, permit.

DIRECTORY LISTING FOR TENANTS SUB-LEASING PREMISES

Residence subscribers who lease their premises for periods of less than one year and who request the Company to render service to their tenants without change in billing, may arrange for the listing of such tenants on "Information" records at the additional listing rate, the minimum charge for any listing period to be \$1.00.

Listing of the tenant will be furnished provided the subscriber and the tenant do not occupy the premises at the same time.

Bills covering all charges for exchange service, toll service and listing charges will be rendered in the name of the subscriber and the subscriber will be responsible for such charges.

A MATTER OF CONVENIENCE

The modern home is fully equipped with all the improved means of comfortable living, and the single telephone home of yesterday is fast becoming the multi-telephone home of today.

Gone are the days when the single telephone hidden away in the back hall was considered the last word in home communication facilities. The present day demand is for extension telephones in bed rooms, living rooms and other parts of the house.

You too can afford the convenience of extension telephones. They cost less than five cents a day. Call the Business Office now for details.

You Must Go After Business!

It will no longer come to you without effort.

You should advertise and your advertisements should be placed where they will be seen.

The Telephone Directory offers a continuous and persistent circulation that reaches your present and prospective customers.

The Telephone Directory goes into the offices, homes, and business places and is in daily use as a source of information.

Call our business office today and arrange for space in the next issue of this directory.
